## Education

Bow Valley College  
Calgary, AB  
Software Development  
Diploma  
GPA 3.93

## Programing Languages

JavaScript, C#, C++, Java

## Database

MySQL, SQLite

## Technologies/Tools

HTML, CSS, React  
React Native, C#.Net,  
Node.js/Express, Git, Postman  
Figma

## Soft Skills

### Self-Motivated

Manages task independently  
and meeting deadlines with  
minimal supervision

### Problem Solver

Effectively troubleshoots issues  
and implements long term solutions  
in various projects

### Work Under Pressure

Delievers high-quality work within  
tight deadlines

### Leadership and Collaboration

Effectivly work and lead on a team

## Personal Objective

As a recent graduate of Software Development, I am eager to leverage my academic knowledge and hands-on project experiences in software development to contribute to an Entry-Level Software Developer position. I am knowledgeable in various programming languages such as JavaScript, C#, MySQL, and frameworks like React.

## Projects

- **Brightcity Mobile Application** | Team Lead, Developer  
JavaScript, React, Github, Expo

Led a team to port a online learning platform web application to a mobile platform using React Native, enhancing user accessibility and expanding the application's scope. Managed the project lifecycle from planning to developing, ensuring timely delivery and timely performance

- **Co-working Registry Website** | Developer  
JavaScript, React, MySQL

Created a co-working space reservation system akin to Airbnb, allowing users to book and manage workspace reservations.

- **School Registration System** | Developer  
JavaScript, React, Github, SQLite

Designed and implemented a comprehensive school registration system to streamline the registration process and reduce administrative overhead. Developed user-friendly interfaces and efficient backend process, improving registration efficiency

- **Financial Budget Mobile Application** | UI/UX, Developer  
Java, Android Studio

Developed and designed an android mobile application for budget management, enabling users to track and manage their expenses efficiently.

to deliver projects on time
